

Research Documentation: The Living Meals

Defining core user needs and health-focused culinary competitive landscape.

User Personas

Persona A

"The Goal-Driven Athlete"

- Needs:** Precision macro-tracking and rapid meal customization.
- Goals:** Hit exact nutritional targets without logging friction.

Persona B

"The Wellness-Focused Parent"

- Needs:** Strict allergen filters and transparent ingredient sourcing.
- Goals:** Plan balanced family meals quickly during busy weeks.

Competitive Analysis

Feature	Living Meals	Competitor A	Competitor B
MACRO TRACKING	ADVANCED	BASIC	NONE
TRANSPARENCY	HIGH	BASIC	LOW
CUSTOMIZATION	FLUID	STATIC	RIGID

User Journey Map (Summary)

EXPLORATION

Explores goal-oriented menus.

CONFIGURATION

Sets macro targets and dietary filters

VALIDATION

Reviews nutritional breakdowns

RE-ORDERING

Completes checkout and order tracking

Core Design Constraints

-  **ADAPTABILITY:** Dynamic UI shifts for changing nutritional goals and restrictions.
-  **CLARITY:** Minimalist interface design to highlight food aesthetics and reduce mental load.
-  **EFFICIENCY:** Low-friction toggles that accelerate meal configuration.
-  **TRANSPARENCY:** Clear visual hierarchies highlighting ingredient sources and metrics.
